Keeping your colors clean and fresh is one of the issues all painters are challenged with. Here is your chance to have a real understanding of chroma, value and hue... wrapped up in a concentrated program of study. This 4-day course will help train your eye to see steps in value, understand temperature changes in hues and how to make high key chroma as well as low key of chroma. You will also learn WHY you should choose certain colors over others to achieve the desired color ... all while keeping your colors clean. Knowledge is powerful.

This class will be working on a 3-tiered color wheel. We will not be working on creating paintings. You will have a strong understanding of color mixing at the end of this workshop. This class is beneficial for all levels, from the beginner to the professional.
